# SPEAKER

Dr. Karen McDonald is a professor in the Department of Chemical Engineering at UC Davis. She completed her B.S. in chemical engineering at Stanford University, an M.S. in chemical engineering at UC Berkeley, and a Ph.D. in chemical engineering at the University of Maryland, College Park. Dr. McDonald joined the chemical engineering department in 1985, where she became the first woman faculty member. She currently teaches courses in the Biochemical Engineering program, in addition to training and mentoring graduate and undergraduate students in research.
